

## **NOVEL CORONAVIRUS INFORMATION**

The New York State Department of Health has issued an Interim Frequently Asked Questions document regarding the Coronavirus. That document can be found on the District webpage, [www.frankfort-schuyler.org](http://www.frankfort-schuyler.org).

The Department of Health states that “everyday preventive actions” can help prevent the spread of the virus. These include:

- Washing hands often, with soap and water, for at least 20 seconds.
- Avoid touching eyes, nose and mouth with unwashed hands.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue.
- Clean and disinfect frequently-touched objects and surfaces.
- Use an alcohol-based sanitizer.

In addition to encouraging the implementation of these measures, the District is also installing additional hand sanitizer dispensers in our buildings. Hand sanitizers have been ordered for the classrooms. The custodians are cleaning desktops and table tops daily, with a disinfectant.
